Innovative programs in Vinayak PG College, Chomu

Vinayak PG College, Chomu has its own identity in Chomu region. The college organizes several seminars related to skill development and gender equity for the students. The college has competency-Based Education that can lead to other innovations–using technology to personalize a student's navigation of to-be-mastered content. The college celebrates national and international days and also performs special activities like shram dan, swacch abhiyan, plantation etc with students. Our faculties teach in such manner that they interact with students and link education with the practical experiences. The college has NCC which is icing on the cake. The girls of the college are trained by the NCC trainers. College management organizes time to time seminar on social issues so that student can learn. Several cultural and sports activities for the students are organized in the college. The college organizes several educational trips such as Science park, museum, biodiversity parks, sanctuaries, hospital visit etc where students can learn several things in different area. The college also takes part in celebration the jayanti of the freedom fighter.
